

Tactical Civics™
Project America 125

Invitation to Lead Project America 125

Dear Friend,

As someone who serves nearly every household in your county, you understand your community better than almost anyone.

Tactical Civics™ exists to help ordinary citizens lawfully hold government accountable under the U.S. Constitution. This is not political work — it is civic responsibility.

Project America 125 is focused on small counties where a few dedicated leaders can reach the required civic threshold and set an example for others.

We would welcome a conversation to explore whether you might help introduce this mission to your community.

With respect,
Regional Coordinator
Project America 125
