Subject: Service Didn't End — It Changed

[Name],

I was encouraged to contact you because of your service and your standing in the community.

Tactical Civics™ is a non-partisan, constitutional effort focused on peaceful, lawful civic action at the county level. Many involved are veterans who believe service doesn't end — it simply takes a different form.

Through **Project America 125**, we're asking a small number of counties to step forward with committed citizens willing to lead locally.

I'm not asking you to carry the load — just to help us identify who *should*.

Would you be open to a brief call?

Respectfully,
[Name]
