Finally... a Solution!

Project America 125, is activating 3 strategic counties per state with a target membership of ½ of 1% of the country population in order to reach Phase II of the Tactical Civics™ mission. Once enough committed citizens take lawful, peaceful, and Constitutional action we will create a national tipping point to restore our republic.

When we finish ratifying the original First Right in our Bill of Rights, we can split Congress into small districts so big cities don't run elections. Then we take Congress out of D.C. forever with our Bring Congress Home Act: they work by telepresence from a leased office in their own towns with a staff of two, 50% of their current salary, only two terms, and no benefits.

Our 19 reform laws will end the hijacking of America by the Deep State, to restore all that we have lost to DC organized crime. This nightmare will only end when you join the only real solution in America and we launch 125 strategic counties. It's time to take action! Just get off of social media, go to **tacticalcivics.com**, and click on 'Join'.
